SUMMARY

JuniorDataAnalyst with practical experience in SQL, Python (Pandas), and data visualization tools (Tableau, Power BI). Experienced in analyzing datasets, building dashboards, and performing cohort and user behavior analysis. Able to transform complex data into actionable business insights and support data-driven decision-making processes.

HARD SKILLS

SQL,Python, Data Analysis, Data Cleaning & Validation, Exploratory Data Analysis (EDA), Data Visualization, Statistical Analysis, A/B Testing, Cohort Analysis, Funnel Analysis, Business Metrics (Conversion Rate, ARPU, LTV, Retention, Churn), Data Storytelling.

TOOLS

Postgr eSQL,Tableau, Power BI, Excel, Google Sheets,Pandas, NumPy),Jupyter Notebook, Matplotlib, Looker Studio, Seaborn.

SOFT SKILLS

Analyticalthinking,Problem-solving, Communication, Attention to detail, Stakeholder communication

PROJECT EXPERIENCE

-UserRetentionAnalysis(SQL Cohort Analysis)

<https://github.com/Marina10051982/retention-analysis-cohort-analysis>

Technologies: SQL, BigQuery, Google Sheets

Description: Performed cohort-based analysis to evaluate user retention, identify churnpatterns, and analyze conversion funnel performance.

Key responsibilities: Conducted cohort analysis to evaluate user retention Built cohort tables and calculated retention KPIs (Day 1, Day 7, Day 30 retention) Analyzed differences between user segments (promo vs organic) Defined key product metrics (retention, conversion, churn)

Result: Identified retention gaps and provided data-driven insights to improve user acquisition quality and retention strategies

-Stack Overflow Survey Analysis (Python)

<https://github.com/Marina10051982/stack-overflow-survey-2024-analysis>

Technologies: Python (Pandas), Jupyter Notebook

Key responsibilities: Cleaned and processed dataset of 49K+ records Performed exploratory data analysis (EDA) Identified trends in salaries, tools, and developer behavior

Result: Extracted insights from real-world data to support analytical conclusions

-User Engagement Dashboard (Tableau):

https://public.tableau.com/app/profile/marina.fetisova/viz/GameActivityDashboard_17789519672690/GameActivityDashboard

Key responsibilities: Built an interactive dashboard to analyze user engagement and activity Visualized key metrics such as DAU/MAU, session duration, and user engagement trends Analyzed user segments and behavior patterns Designed filters for dynamic data exploration

Result: Identified key engagement trends and user behavior patterns to support decision-making

WORK EXPERIENCE

Founder, Psychologist

Private Psychological Studio "Resource" | July 2021 – Present

Responsibilities:

- Conducted individual psychological consultations
- Developed personalized therapy and support programs
- Managed business operations, marketing, and client acquisition
- Maintained client records and ensured confidentiality
- Organized and facilitated personal development sessions

Achievements:

- Built a stable client base through referrals and marketing
- Improved client outcomes and satisfaction levels
- Successfully launched and managed a private practice

Branch Manager

UkrGasbank, Ukraine | May 2017 – July 2021

Responsibilities:

- Oversaw full-cycle branch operations and sales management
- Managed team recruitment, training, and development
- Analyzed financial reports and performance metrics
- Ensured compliance with national banking regulations
- Strengthened relationships with key clients and partners

Achievements:

- Increased branch profitability and business performance
- Built a high-performing and results-driven team
- Successfully met and exceeded business targets

Branch Manager

ExpressBank, Ukraine | February 2015 – April 2017

Responsibilities:

- Supervised branch operations and service delivery
- Monitored financial performance and KPIs
- Coordinated team activities and workflow optimization
- Ensured high levels of customer satisfaction
- Implemented corporate policies and procedures

Achievements:

- Achieved consistent growth in financial results
- Enhanced customer retention and service quality
- Optimized operational processes, reducing inefficiencies

EDUCATION

- **GoIT** — Data Analytics course (2025–2026)
- **Rivne Institute of the Open International University of Human Development "Ukraine"** — master's degree, General Psychology (2019 – 2021)

• **Kirovohrad Institute of Commerce (Robert Elvorti Economics and Technology Institute / ETI)**
— bachelor's degree, Accounting and Auditing(2005 – 2008)

• **Kropyvnytskyi Engineering College of the Central Ukrainian National Technical University** —
Junior Specialist, Tool Manufacturing (1999 – 2001)

LANGUAGES

English — Intermediate | **Ukrainian** — Native | **Italian** — Beginner | **Russian** — Fluent
